Product Code

**INFORM 15/8 RH8**

#### Drawing Specification

##### Product Description

24mm former 1500mm x 800mm with integrated gradient.  
The formers have a precise, built-in fall, which ensures surface water flows in the direction of the waste outlet.

##### Purpose

The OTL Infinity I-Line Former once installed is concealed.  
The purpose of a former is to provide a sufficient gradient in the floor within the showing zone.

##### Most Commonly Used In

Private homes, high end developments, gyms, spas, hotels.

##### Install Particulars

All OTL Infinity I-Line Formers can be trimmed onsite if required.

Used only in conjunctions with tiled floors.
