Product Code

**INFFORM 9/9 LH9**

**Drawing Specification**

Product Description  
24mm former 900mm x 900mm with integrated gradient.  
The formers have a precise, built-in fall, which ensures surface water flows in the direction of the waste outlet.

Purpose  
The OTL Infinity I-Line Former once installed is concealed. The purpose of a former is to provide a sufficient gradient in the floor within the showing zone.

Most Commonly Used In  
Private homes, high end developments, gyms, spas, hotels.

Install Particulars  
All OTL Infinity I-Line Formers can be trimmed onsite if required.

**Used only in conjunctions with tiled floors.**
